EDUCATION

Undergraduate NIIT UNIVERSITY

07/2016 – Present

High School Minerva Sr. Sec. Public School

04/2004 – 04/2016

PERSONAL PROJECTS

Analytics Dashboard (2020)

- Created a Google Analytics like dashboard to display analytical reports and charts of analysis performed.

Web AR Application (2020)

- Created a Web AR Application during my industrial training with The Higher Pitch. The application plays a predefined video when your device camera detects the target image.

Decibel-Threshold Sound Meter (Noise Level) (2018)

- An Android app which is used to measure surrounding noise levels in Decibels and notifies the user when the threshold is crossed. It's clean and beautiful user interface makes it all the more user-friendly.

Determining popular twitter hashtags (2019)

- Analyzing live twitter hashtags using flume and finding out the popular hashtags using Apache Pig.

Research on SNA and best possible technique for CSCL (2019)

- Wrote a research paper on Social Network Analysis and using its findings to determine the best possible technique for Computer Supported Collaborative Learning.

Single Source Dashboard for KIE Square (2018)

- Designed a single source dashboard for KIE SQUARE for which the specifications were drawn by the company itself.

Shiksha Desk (Startup) (2018)

- This startup is still in progress in which we will provide school necessities to the students of the nearby schools in Delhi and Jaipur.
- School necessities include school uniform, textbooks, stationery items.
